

# Concorde Battery Approves New Equipment for RG<sup>®</sup> Series

West Covina, Calif. (July 25, 2012) - Concorde Battery has approved the Aviation Versions of **BatteryMINDER<sup>®</sup>** 12-V and 24-V models for use on all RG<sup>®</sup> Series batteries

Concorde Battery Corporation worked closely with VDC Electronics, Inc. the makers of the BatteryMINDER<sup>®</sup> to develop the new 12248-AA-S5 (12 Volt) and 24041-AA-S5 (24 Volt) BatteryMINDER<sup>®</sup> maintainers with optimal charge voltage for RG<sup>®</sup> Series batteries. Concorde conducted extensive testing to determine the optimal voltage requirements for maintaining RG<sup>®</sup> batteries in order to provide customers with extended life and optimal performance.

## About Concorde Battery

Concorde designs and manufactures over 90 models of Original Equipment and direct replacement batteries for fixed- and rotary-wing aircraft and has a reputation for designing application specific solutions. Concorde batteries are installed as Original Equipment by the majority of aircraft manufacturers and adopted by military aircraft operators worldwide.
